

SIMONTON
WINDOWS®

Repair & Replacement Portfolio

With **Simonton** you're not only getting the ideal window for you and your home, you're also getting the peace of mind that comes from over **65 years of experience.**

The Simonton Brand

Throughout the years, Simonton has developed and perfected **innovative, energy-efficient and solutions** that our customers have come to trust. Today, our legacy of customer loyalty and satisfaction is second to none.

In order to fit our customers needs, we offer several distinct premium vinyl window and door lines, including repair and replacement, new construction and impact-resistant. Each of our windows and doors is custom built specifically for your home, delivered quickly and backed by our **Double-Lifetime Limited Warranty.**

When it comes to Simonton **repair and replacement**, the quality is in the details.

We believe that the process of replacing your windows should be satisfying and hassle-free. That's why our Reflections® 5500 and Asure™ replacement lines are designed not only to update your home's appearance, but also its performance. Each window and door is backed by 65 years of engineering and innovation to ensure that the products you put in your home are durable and reliable over time.

Recognized for **Quality**:

Every window that Simonton builds is AAMA Gold certified, which means that it has passed stringent tests for air leakage, water infiltration and wind pressure.

Recognized for Energy **Efficiency**:

All of our Reflections 5500 and Asure windows and doors can be ordered to meet ENERGY STAR® guidelines for any region of the country, no matter where you live.

Recognized for Customer **Satisfaction**:

Simonton was ranked "Highest in Customer Satisfaction with Windows and Doors Two Years in a Row."

Give your home the update it deserves.

Our Reflections® 5500 premium vinyl replacement windows and doors provide a wide variety of options to ensure that you can find the perfect custom styling solution for your home. Each Reflections 5500 window or door can be ordered with Decorum®, a portfolio of popular exterior and interior colors, rich authentic woodgrain laminates and hardware options.

Designed for industry-leading energy efficiency, weather resistance and quality, they provide unsurpassed reliability for years to come.

Asure[™]
SEE MORE. GET MORE.[™]

Introducing **Asure** way to transform your home.

Simonton's new Asure[™] windows and doors were created to meet the unique demands of today's homeowners. Because energy efficiency and low maintenance solutions are more important than ever before, they deliver excellent thermal performance and quality features you can count on.

With a narrow frame and expansive viewing area, Asure windows and doors let in more sunlight to help open up any room in your home. Their streamlined, sophisticated design creates a look that is both classic and contemporary. And most importantly, you'll see legendary Simonton quality in every detail.

Whether you want to match your home's current style or change it entirely, the right style selections can go a long way.

With Reflections® 5500 and Asure™, you can choose from a wide variety of window shapes and operating styles to complement any room in your home.

Simonton Windows received the highest numerical score among window and door manufacturers in the proprietary J.D. Power and Associates 2010-2011 Windows and Patio Doors Satisfaction Studies™. 2011 study based on responses from 2,805 consumers measuring 11 brands and measures opinions of consumers who purchased new windows or patio doors in the previous 12 months. Proprietary study results are based on experiences and perceptions of consumers surveyed in March-April 2011. Your experiences may vary. Visit jdpower.com

Simonton windows and doors are tested to the advanced AAMA Gold Label Certification Program. The Gold Certification is AAMA's highest level of testing with windows and doors being tested for thermal performance as well as air, water and structural integrity. The standard AAMA silver label only requires thermal testing. Simonton's Product Development Center is an ATI-certified lab site that enables us to perform thorough, in-house structural and thermal testing. An AAMA gold label certifies that the units assembled on the production lines are using the same process and components as the unit that was tested. Only the AAMA Gold Label indicates that. The product underwent testing based on the stringent requirements of the ANSI/AAMA/NWWD A101/I.S.2 and AAMA/WDMA/CSA 101/I.S.2/A440-05 industry standards. Certification to AAMAS06/conforms to requirements of ASTM E 1886 & 1996. These tests were performed at an independent AAMA-accredited testing laboratory. An Independent (third-party) Validator through two unannounced plant inspections each year has continuously monitored the product production for compliance.
