

Perfectly Beautiful

LEARN MORE ABOUT OUR PRODUCTS

As you look through this book, you'll notice a QR code and the Pella Augmented Reality (AR) logo. The QR codes on each product page are a direct link to ratings, reviews and complete product information found online.

The Pella AR logo indicates there is an augmented reality experience, where you can view a popular window or door for that particular product line.

To get started, search "Pella" in the app store appropriate to your device and download the Pella AR app.

To view, select "AR Camera", tap on the "Perfectly Beautiful Book" button and select your version to load the AR experience. When the camera view opens, aim at the page with the Pella AR logo for the experience to start.

When the image appears, you can select to change the interior finish colors of each product if you desire. This experience gives you a 3D view of the product represented on that page in the book.

The information published in this document is believed to be accurate at the time of publication. However, because we are constantly working to improve our products, content is subject to changes without notice. Consult your local Pella representative for up-to-date product information.

AT PELLA, we don't just create windows and doors. We innovate with purpose, design with passion, build with integrity and deliver with pride. From testing beyond industry requirements to delivering continuous innovation – we go beyond what meets the eye to make beautifully designed windows and doors that our customers can be proud to own. ¹ Study of homeowner perceptions of leading national brands. Study commissioned by Pella, 2019.

² Based on comparing written limited warranties of leading national wood window and wood patio door brands. See Pella written limited warranty for details, including exceptions and limitations, at pella.com/warranty, or contact Pella Customer Service at 877-473-5527.

Integrated Rolscreen® retractable screen

- A.** Available on Pella® Architect Series® Reserve™ single- and double-hung windows.
- B.** Open your window, and the screen appears.
- C.** The retractable screen is stored safely inside the window when it's not in use.

Reimagining the Screen, Again

Innovation is in our genes. In 1925 we revolutionized window technology with the patented casement window Rolscreen® retractable screen. This ground-breaking product remains one of our most popular offerings today – but we've never stopped looking for ways to make it even better.

Consumers, builders and architects alike told us that they wanted an elegant screen that was easy to use, performed well and didn't compromise the beauty of their windows.

Introducing the Integrated Rolscreen, a patent-pending screen that is there when you need it and hidden when you don't. The retractable screen moves seamlessly with the sash of your single- or double-hung window – appearing when you open the window and rolls away, out of sight, when you close it.

Stored safely inside the window when it's not in use, the concealed screen eliminates the need for seasonal screen removal and storage. It also allows for more natural light than a conventional screen and provides a cleaner, more polished look from both the interior and exterior.

Tested for superior durability, the retractable screen is constructed of quality materials you can trust. High-powered magnets hold the screen in place. High-transparency InView™ screen cloth allows more light in and for greater airflow than conventional screens.

Learn more.

A Window to the Future

What if your windows...had no hardware, sash or frame, could be operated with an app or your voice, automatically adjusted how it was open when the weather changed and...could change your life?

Have you thought about what your windows will be like in five years? In 10 years? We have.

In order to improve what we do and how we do it, we are constantly seeking feedback and listening to our customers. This drive to improve has earned us over 150 patents throughout our history and produced some amazing innovations. We've created integrated blinds, shades and security sensors, and even self-storing screens that disappear into the frame when not in use. And these designs are just the tip of the iceberg.

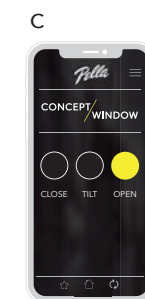

We look beyond what works today by thinking about how you might interact with your windows in the future. We strive to deliver advanced ideas that make life easier now.

With interest in contemporary designs with built-in technology at an all-time high, we dedicated a team to develop an ultra-modern, concept window with an in-plane, all-glass exterior.

Debuting at the American Institute of Architects National Convention, the window earned high praise from the design and architect community. Featuring a thinner frame, narrower sashes and more glass, the window is motorized and can be operated remotely.

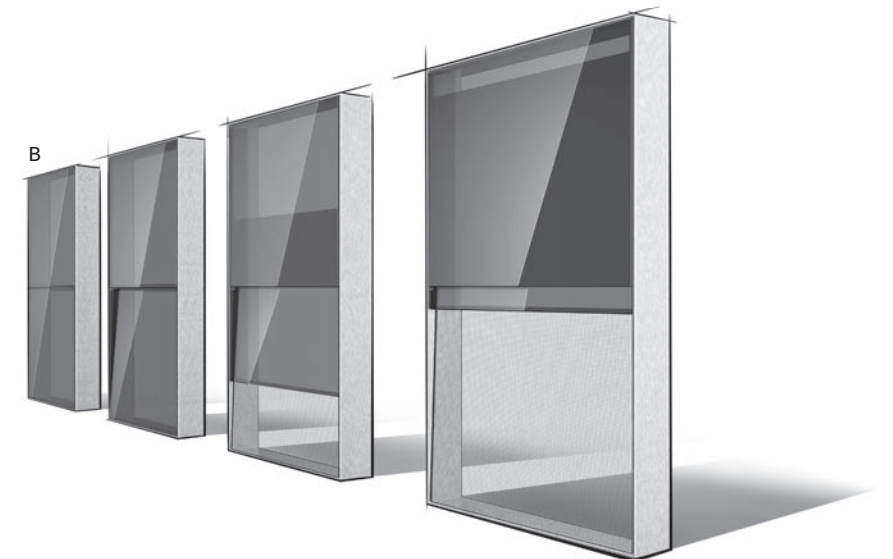

Our ultra-modern window features more than a few innovations, too. A retractable screen rolls out of sight when not in use. In addition to providing standard, single-hung operation, this window tilts inward – like the door on a hopper – to allow for venting and maximum fresh air even when it's raining.

When we think about the future of windows and doors, the sky is the limit. Just think about what your windows could do for you.

Pella® Concept Window 1

- A.** The window was unveiled at the 2018 American Institute of Architects National Convention.
- B.** When the window is closed, it looks like a single pane of glass. As it opens, the bottom sash tilts inward like a hopper and the glass moves all the way to the top, bringing with it a retractable screen.
- C.** The concept window is operated with a mobile app.

Watch the video.

Delivering Products You Can Trust

To say we are detail oriented is an understatement. We tried to count the number of quality checks that we do in a typical hour, but we had to stop at 7,502 to get back to work.

Pella believes in going beyond the ordinary. From our innovative designs to material choices and testing, we want to make sure your home is enhanced in all the right ways. Our windows and doors are custom-built to help ensure the right fit and are made to stand the test of time.

We test our designs rigorously to help ensure your windows and doors arrive in excellent condition and perform well throughout the years, in a variety of environments.

Some tests are performed one right after another to try to more closely replicate real-world conditions and observe how the designs perform. For example, after a window design is cycle tested thousands of times, it could then be put through an air and water or thermal test.

We are passionate about developing innovative windows and doors that go beyond to deliver a product you can trust and be proud of.

Hurricane testing

To test the laminated glass in Pella® HurricaneShield® windows and patio doors rated to a ASTM E1996 missile D rating, we fire a 2'x4' at 50 feet per second at the window. The window and laminate need to remain intact to prevent a large rush of air and debris from entering the home. After impact, we subject the window to 9,000 cycles of hurricane pressures to help ensure the window will remain intact.

Air, water and structural chamber testing

A specially designed chamber tests for air, water and structural performance. There is a separate set of conditions for the three tests and the testing simulates positive and negative wind loads.

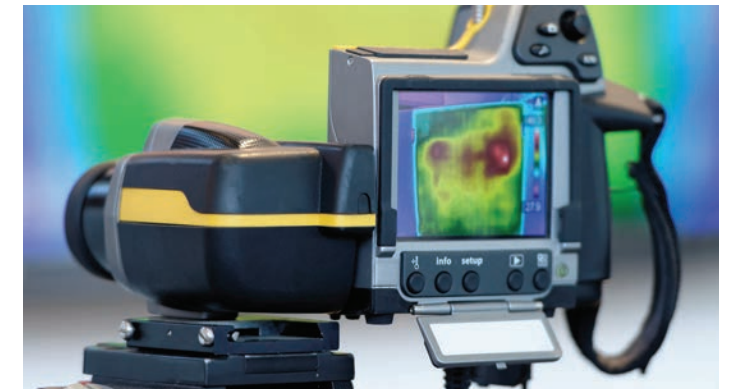

Insulated glass testing

To test how sealants perform, glass is placed in a chamber at 140 degrees Fahrenheit with 100% humidity. It is then moved to another chamber that simulates ultraviolet radiation and back again.

Thermal testing of glass

An infrared camera visually shows the efficiency of our glass. We compare dual-pane glass with no coatings or argon gas to dual-pane glass with Low-E coating and argon gas.

Cycle testing

We test our products by operating them thousands of times to understand performance of the windows and doors, and key components like locks, screens and shades.

Expanding Your Horizons

New patio doors aren't just about comfort, performance or curb appeal; it's about extending your living space beyond your four walls.

Pella® Architect Series™ Contemporary
A Pella Scenescape™ multi-slide patio door with a Charcoal stained interior.

Multi-Slide Patio Doors

Multi-slide patio doors invite the outdoors in and the indoors out. Featuring up to 10 glass panels which slide open to one side or part in the middle, without interfering with your interiors or exteriors. The panels can be tucked away out of sight or stacked against each other when open.

Bifold Patio Doors

Bifold patio doors extend your living space and create a wider opening. With up to 10 glass panels that open and close along a singular track, bifold patio doors fold neatly to store indoors or out.

When the outdoors are calling, Pella Scenescape patio doors answer.

You don't just live your life within the four walls of your home, you live it on the balcony, in your courtyard, by the pool and in the backyard. Your patio doors shouldn't restrict your living space; they should expand it.

Live large with distinctive patio door styles designed to extend your living space beyond your walls.

Whether your home calls for the fine, thoughtful details of our traditional designs or the clean, smart lines of our contemporary products, Pella Scenescape patio doors offer the styles to bring your vision to life.

Complete the look with beautiful hardware, elegant wood choices and rich finishes to perfectly personalize your style. Get built-in peace of mind with the option of integrated Pella Insynctive® security sensors.¹ For more convenience, use the Pella Insynctive App to monitor windows and doors while at home or away.²

Available on all Pella Architect Series lines. See your local Pella sales representative for details or visit pella.com/scenescape.

¹ On bifold patio doors, Insynctive technology monitors if the door is locked or unlocked on passage doors only.
² Requires the Pella Insynctive App on a smart device, an Insynctive Bridge and a wireless home internet router with internet connection.

Pella Architect Series Contemporary
A Pella Scenescape bifold patio door with a stained Wheat interior.

Creating Solutions for Real Life

Where some might see just a window or door, we see an opportunity for thoughtful, innovative products that make your life easier.

We know shopping for windows and doors can seem overwhelming, but we work hard to simplify it for you and make it easy.

YOU DESERVE OUR BEST

It's simple. We're passionate about what we do.

Since our founding in 1925, we've prided ourselves in going beyond what is required and continually striving to perfect the details you can't see. It's the driving force behind everything we do.

We're not willing to settle for just "good" windows and doors. We work to create inspiring and innovative designs that make your life easier day in and day out. Thanks to great customer feedback, our products continue to feature design innovations that challenge the status quo and enhance your home.

When homeowners told us they wanted a flexible and smart security solution, we created Insynctive® technology. It offers integrated security sensors that monitor if your windows are closed and patio doors are closed and locked. You can add motorized between-the-glass blinds or shades for more control over your privacy and comfort. For more convenience, use the Pella Insynctive App to monitor windows and doors while at home or away.¹

Our new Pella® Lifestyle Series wood windows and patio doors are packed with useful innovations. You can choose your window or patio door style and then add the features, options and innovations to create solutions that work for your life, room by room. Choose more panes of glass for better sound control and energy efficiency or our best integrated blinds or shades for more privacy. No matter your style, we've purposefully designed Pella Lifestyle Series products to give you the flexibility to craft solutions for your unique space.

YOU DESERVE THE BEST MATERIALS

Exceptional, that is Pella's standard of quality.

We refuse to compromise on the materials that go into your window – no matter what Pella window or door you select. With all of our wood windows and doors, you can trust that the same quality lumber, metal and manufacturing processes were used.

Pella fiberglass products are made from Duracast®, the strongest, most durable material available for windows and patio doors.² In addition, our unique vinyl formula is performance-tested for excellent weathering, durability and color retention.

YOU DESERVE TAILOR-MADE SOLUTIONS

We know that one size doesn't fit all when it comes to windows and doors. Your home, rooms and needs are unique. That's why we tailor-make products specific to each opening in your home.

Our designs, engineering, careful material consideration and testing allow us to build products with confidence. We're not just building your window; we're crafting it.

Not just anyone makes your windows and doors. They are made by a dedicated team who have been studying their craft for years. Pella's wood craftsmen have been honing their skills, on average, for over 14 years – that's longer than it takes for most to earn their PhD.

We know that every customer's home is unique. That's why we work with you to consider all the details including style, size, colors, hardware, screens and even more. Our goal is to help bring your vision to life.

With Pella Lifestyle Series, you can pick and choose the right features, options and innovations to make a solution that fits your life, room by room. And you don't have to compromise on any aspect of performance. Available performance solutions offer an unbeatable combination of energy efficiency, sound control and value.³

At Pella, we're committed to finding a better way, exceeding what's required and giving our best – all to provide you with windows and doors that help enhance your home. We're proud of the windows and doors that leave our manufacturing plants every day and can't wait to bring your vision to life with windows and doors tailor-made just for you.

¹ Requires the Insynctive App on a smart device, an Insynctive Bridge and a wireless home internet router with internet connection.

² In testing performed in accordance with ASTM testing standards, Pella's Duracast has displayed superior performance in strength, ability to withstand extreme heat and cold, and resistance to dents and scratches. Special shape windows are made from a non-Duracast fiberglass composite.

³ Performance solutions require upgrades to triple-pane, AdvancedComfort Low-E and mixed glass thickness. Based on comparing product quotes and published STC/OITC and U-Factor ratings of leading national wood window and patio door brands.

Maybe...

...you live on a busy street and enhanced sound control is important to you.

...energy efficiency is important because certain rooms become too hot or too cold, depending on the day.

...you have a new baby or work the night shift and want room darkening curtains but prefer them integrated into the window.

...feeling more secure with integrated security sensors is important to you.

...you don't want a screen blocking your prized windows and instead want to upgrade to a self-storing screen that rolls away when not in use.

...you need a little bit of everything.

WINDOWS & PATIO DOORS

PELLA® ARCHITECT SERIES® RESERVE™

Wood windows and patio doors customized to meet your vision with detailed craftsmanship. For more information, see page 19.

Window & Patio Door Buying Made Easy

Follow this six-step guide to make window and patio door shopping a breeze.

1

EVALUATE YOUR CURRENT WINDOWS & DOORS

Do you have difficulty cleaning, closing or opening your windows and patio doors? Look for problem signs, such as drafts, condensation, fogging, chipping or water stains. Also consider the style and availability of replacement parts.

2

IDENTIFY WHAT'S IMPORTANT TO YOU

Energy efficiency? Less cleaning? Hardware and finishes? Identify which window and patio door features, like between-the-glass blinds, screens, grilles or smart technology, are most important to you. Design the space that you've always dreamed of.

3

SELECT THE RIGHT MATERIAL

It's one of the most important questions: which material is best for my home? Wood, fiberglass and vinyl are common choices, and each has its own unique attributes and distinctive styles. Explore window and patio door materials on pages 16, 26 and 30.

4

MATCH WINDOWS & DOORS TO YOUR STYLE

Depending on the style, function and your budget, there are a wide variety of window and patio door styles and finishes available. Compare Pella's product lines on page 42 and common window and patio door styles on page 44.

5

GIVE YOUR WINDOWS & DOORS PERSONALITY

Based on the window or patio door line and style you choose, select from dozens of finishes and colors, between-the-glass blinds, shades or grilles to personalize your products. Choose hardware, trim and energy-efficient glass options, too.

6

TALK TO AN EXPERT

We understand that window and patio door shopping isn't something you do every day, so we are here to help. Visit a Pella Showroom or schedule an in-home consultation to see samples, get measurements and receive a free quote. Call us at 833-44-PELLA.

WOOD WINDOWS & PATIO DOORS

Pella® Lifestyle Series WOOD

Unbeatable performance options.³

79% more energy efficient
for a more comfortable home⁴

52% reduction in outside noises
like traffic and lawnmowers⁵

Values are averages based on the Ultimate Performance package compared with single-pane windows.

Style and durability.

Durability and style flexibility with the most desired features and options, backed by the best limited lifetime warranty in the industry.¹

Packed with innovation.

37
TIME-TESTED
INNOVATIONS

Offering products with 37 time-tested innovations like our best integrated blinds and shades and integrated security sensors.

Integrated blinds and shades are accessible and located between the glass, protected from dust and damage.

Optional built-in window and door sensors and motorized between-the-glass blinds and shades add security and convenience.

Create solutions that are perfect for real life. Covered by the best limited lifetime warranty for wood windows and patio doors, Pella Lifestyle Series offers everything you love about wood – including beauty, durability and style flexibility.¹ Begin with dual- or triple-pane glass and then select from the most desired features and options.²

Pella® Lifestyle Series is the #1 performing wood window and patio door for the combination of sound, energy and value.³ Packed with purposeful innovations like Integrated Blinds, Shades and Security Sensors, we designed windows and patio doors to work for your life, room by room.

¹ Based on comparing written limited warranties of leading national wood window and wood patio door brands. See Pella written limited warranty for details, including exceptions and limitations, at pella.com/warranty, or contact Pella Customer Service at 877-473-5527.

² Double-hung window only available with dual-pane glass.

³ Performance solutions require upgrades to triple-pane, AdvancedComfort Low-E and mixed glass thickness. Based on comparing product quotes and published STC/OITC and U-Factor ratings of leading national wood window and patio door brands.

⁴ Window energy efficiency calculated in a computer simulation using RESFEN 6.0 default parameters for a 2000 sq. foot new construction single-story home when comparing Pella Lifestyle Series windows with Advanced Comfort Low-E triple-pane glass with argon and mixed glass thickness to a single-pane wood or vinyl window. Double-hung windows are not available with triple-pane glass. The energy efficiency and actual savings will vary by location. The average window energy efficiency is based on a national average of 94 modeled cities across the country and weighting based on population. For more details see pella.com/methodology.

⁵ Reduction in sound based on OITC ratings of Pella Lifestyle Series windows with triple-pane glass with mixed glass thickness to a single-pane wood or vinyl window with an OITC of 19. Calculated by using the sound transmission loss values in the 80 to 4000 Hz range as measured in accordance with ASTM E-90(09). Actual results may vary.

³ Exceeds AAMA 613 test requirements.

⁴ Window energy efficiency calculated in a computer simulation using RESFEN 5.0 default parameters for a 2000 sq. foot existing single story home when comparing a Pella 250 Series vinyl window with InsulShield Advanced Low-E triple pane glass with argon to a single paned wood or vinyl window. The range of energy efficiency will vary from 54% to 77%, and will vary by location. Your actual savings will vary. The average window energy efficiency is based on a national average of 94 modeled cities across the country with an adjustment based on population. For more details see pella.com/methodology.

⁵ Sliding patio door available Summer 2019. See your Pella sales representative for availability.

Encompass by Pella[®] VINYL

Easy-care vinyl.

LOW-MAINTENANCE. The solid color throughout keeps minor dings and scratches virtually invisible and means no more painting.

MORE COMFORTABLE. Pella's weather protection system helps protect your home from leaks and drafts.

STAND THE TEST OF TIME. Our precision welding process makes a strong and more durable product that resists warping and twisting.

Designed to make life easier.

EASY OPERATION. Pella's true glide balance system allows your single- and double-hung windows to open and close easily and quietly.

DUST-FREE GRILLES AND BLINDS. Never worry about cleaning between-the-glass grilles and blinds that are sealed between insulating glass and kept safe from dust and damage.

LIMITED LIFETIME WARRANTY. Backed by one of the best warranties in the business, you can be confident in your investment.²

With Encompass by Pella, you can own windows and patio doors backed by the name you know and trust, at a price that is easy on your budget.

Featuring low-maintenance, high-grade vinyl frames, these windows look great for years and are energy efficient. Lower heating and cooling costs with energy-efficient options that will meet or exceed ENERGY STAR[®] guidelines in all 50 states.¹

View ratings, reviews and product info.

¹ Some Pella products may not meet ENERGY STAR[®] guidelines in Canada. For more information, contact your local Pella sales representative or go to energystar.gc.ca.

² The Pella Limited Lifetime Warranty is non-prorated, meaning the coverages within the defined warranty periods do not decrease over time. See Pella written limited warranty for details, including exceptions and limitations, at pella.com/warranty, or contact Pella Customer Service at 877-473-5527.

³ Double-hung window available in East Region only.

Parts of a Window

There's more to a Pella® window than meets the eye. Review the basics – and some of the special extras that we build in.

Window Styles

AWNING

CASEMENT

SINGLE-HUNG

DOUBLE-HUNG

SLIDING

BAY OR BOW

HEAD

The main horizontal piece that forms the top of the window frame.

WINDOW ACCESSORIES

Pella's exclusive between-the-glass offerings that protect blinds, shades and grilles from dust, damage and indoor allergens.*

FRAME

Made up of the head, jamb and sill, it's the structure that encases the window system.

GRILLE

Decorative pieces that visually divide the glass, giving the appearance of multiple panes.*

LOCK HARDWARE

The locking mechanism that holds the window securely shut.

INSULATED GLASS

Glass that is commonly framed together with an insulating spacer and has an energy-efficient airspace.

JAMBS

The main vertical pieces that form the sides of the window frame. A jambliner creates a snug fit for the window sash.

INSYNCTIVE® TECHNOLOGY

Optional security sensors that monitor if the window is open or closed and motorized between-the-glass blinds and shades.*

SASH

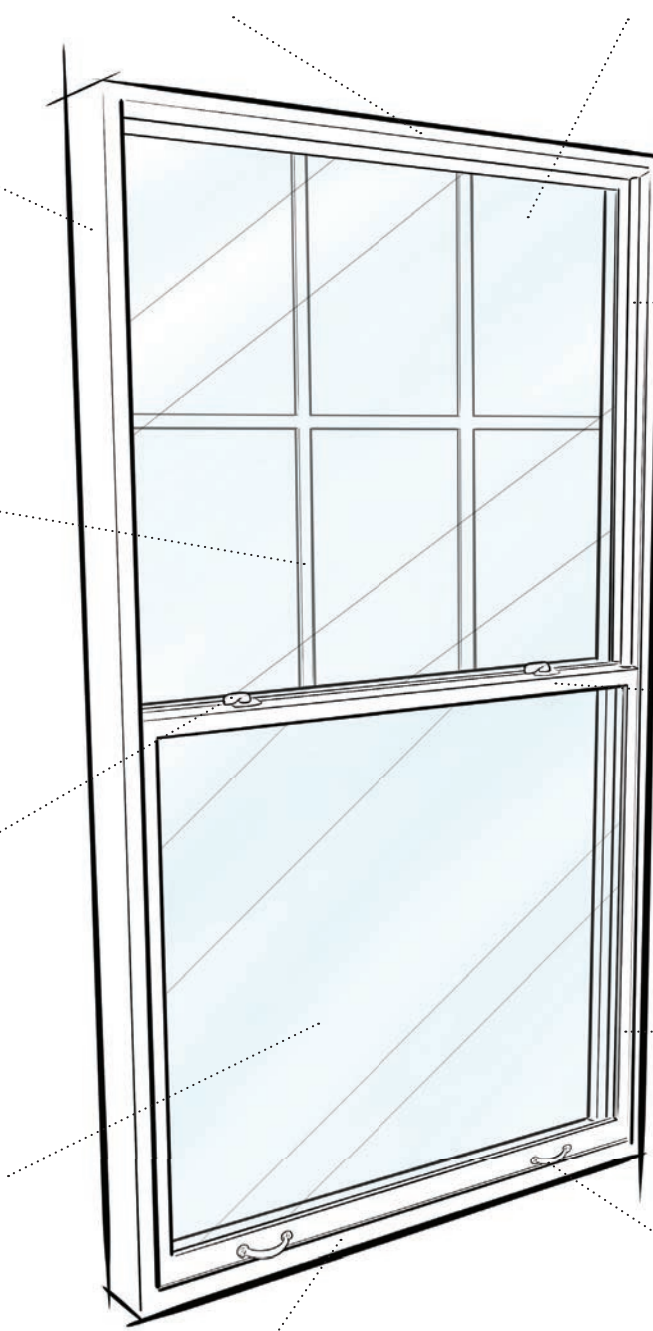

The movable part of the window that holds the glass.

SASH LIFT

A handle for raising the lower sash in a single- or double-hung window.*

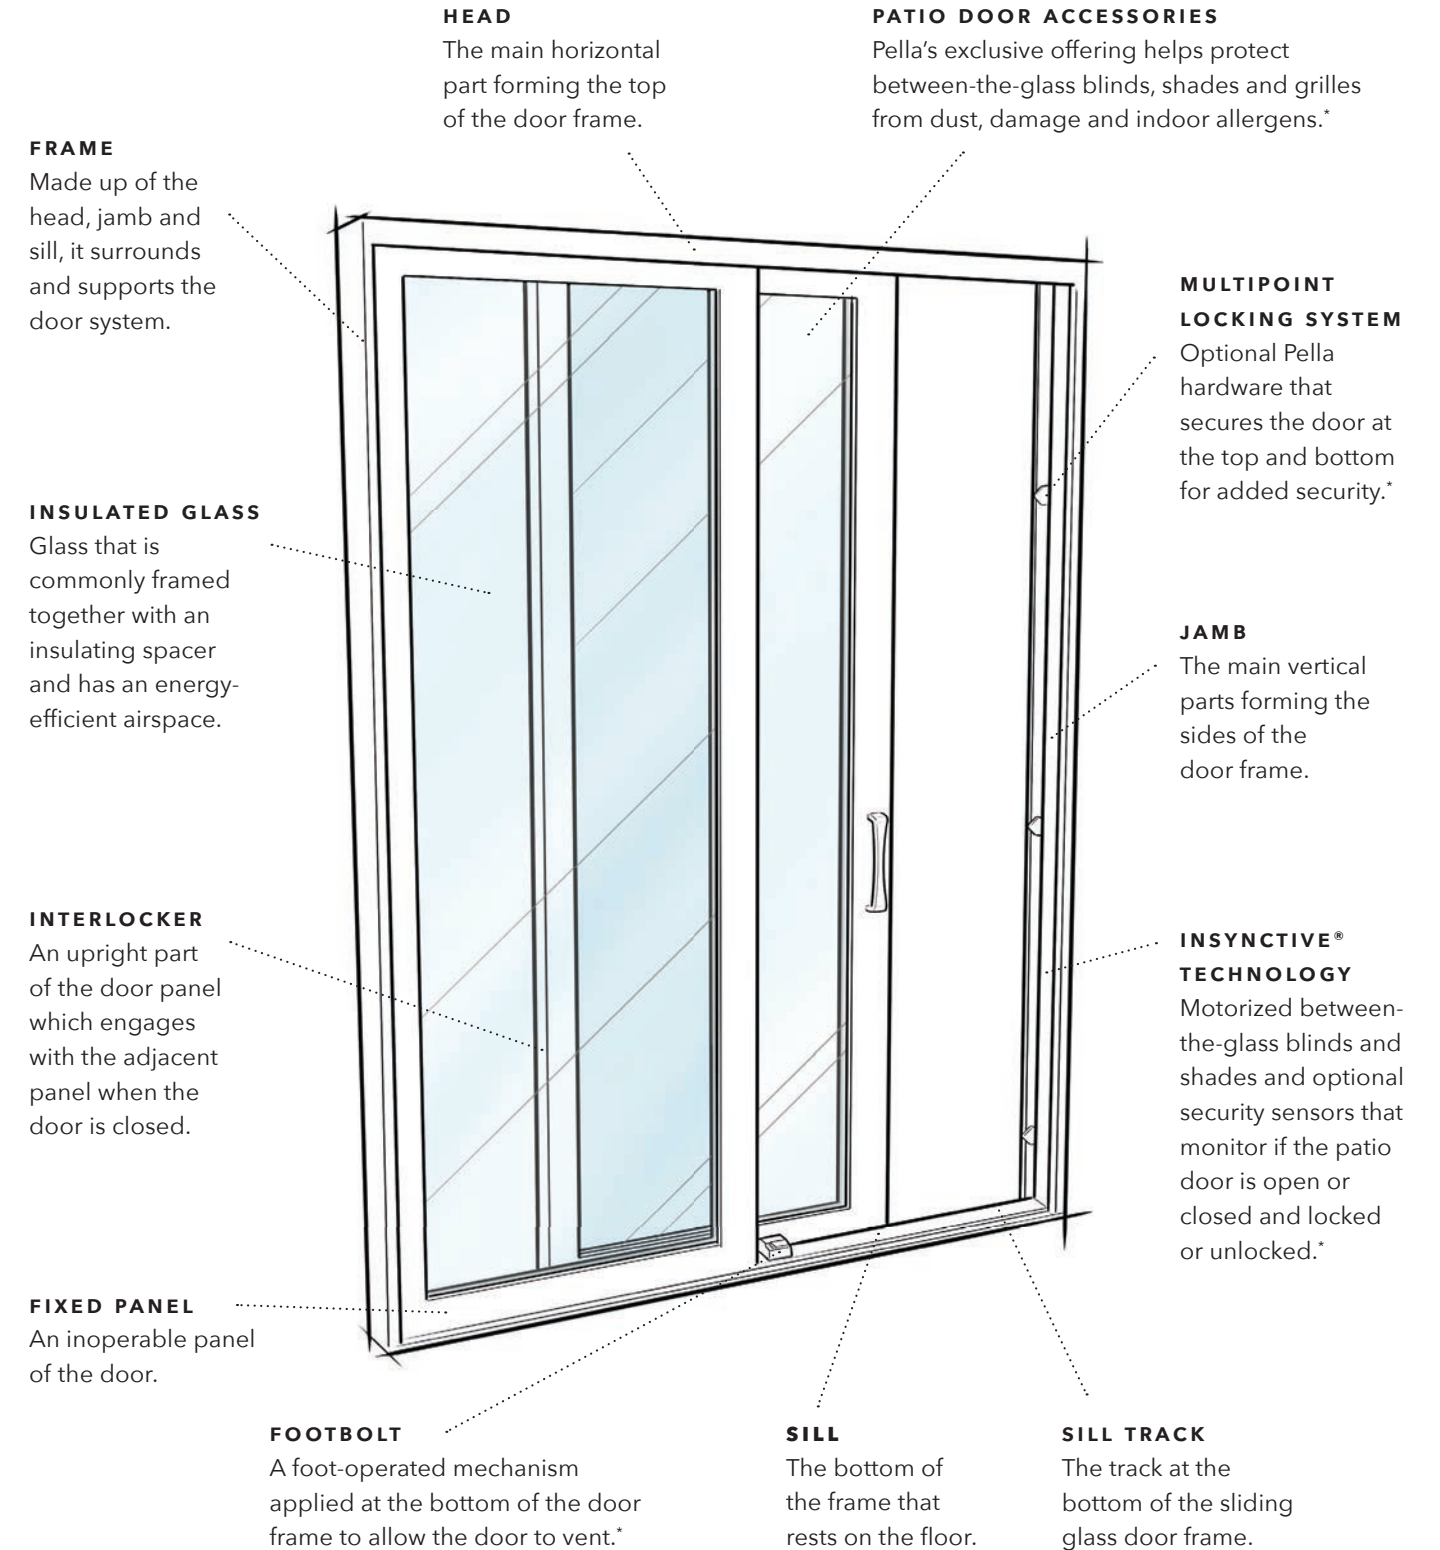

SILL

The main horizontal piece that forms the bottom of the window frame.

³ Duracast material is not available on all product configurations.

⁴ Available in Summer 2019. See your Pella sales representative for availability.

⁵ Double-hung window available in East Region only.

Window & Patio Door Styles

Pella offers a variety of window and patio door types to perfectly complement your home's style. Windows are custom built to help ensure the right fit and last for years to come.

Awning Window

Awning windows are hinged at the top and swing outward from the bottom. They glide open and shut with the turn of one easy-to-operate handle. Add architectural interest and light by placing them above or below other windows.

AVAILABLE IN:

Pella® Architect Series® Reserve™	\$\$\$\$-\$\$\$\$\$
Pella Architect Series Traditional	\$\$\$-\$\$\$\$
Pella Architect Series Contemporary	\$\$\$-\$\$\$\$
Pella Lifestyle Series	\$\$-\$\$\$
Pella Impervia®	\$\$
Pella 350 Series	\$\$-\$\$\$
Pella 250 Series	\$\$

Casement Window

Casement windows are hinged at the sides and swing outward, providing a clear view. They open and close easily with the turn of a handle and are a great option for hard-to-reach spaces, like over the kitchen sink.

AVAILABLE IN:

Pella Architect Series Reserve	\$\$\$\$-\$\$\$\$\$
Pella Architect Series Traditional	\$\$\$-\$\$\$\$
Pella Architect Series Contemporary	\$\$\$-\$\$\$\$
Pella Lifestyle Series	\$\$-\$\$\$
Pella Impervia	\$\$
Pella 350 Series	\$\$-\$\$\$
Pella 250 Series	\$\$

Single-Hung Window

A classic look for any home, single-hung windows are raised from the bottom for ventilation, while the top sash remains stationary, helping to deliver a secure seal against the elements.

AVAILABLE IN:

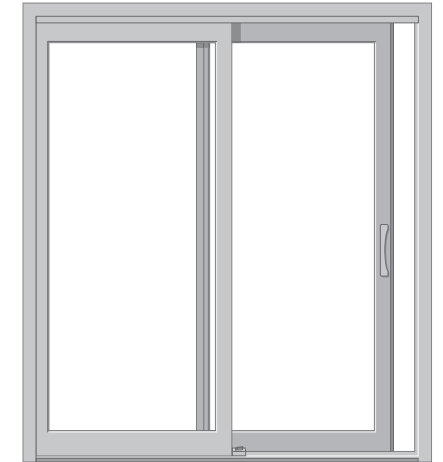

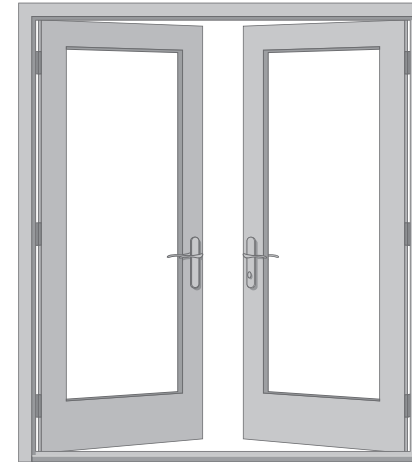

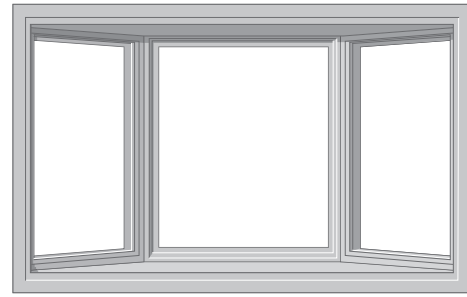

Pella Architect Series Reserve	\$\$\$\$-\$\$\$\$\$
Pella Architect Series Traditional	\$\$\$-\$\$\$\$
Pella Impervia	\$\$
Pella 350 Series	\$\$-\$\$\$
Pella 250 Series	\$\$
Encompass by Pella	\$\$-\$\$\$

Double-Hung Window

Appropriate for any style home, double-hung windows have two sliding sashes providing efficient ventilation. Raise the lower sash to allow in a cool breeze. Lower the upper sash to pull hot air from the ceiling outside.

AVAILABLE IN:

Pella Architect Series Reserve	\$\$\$\$-\$\$\$\$\$
Pella Architect Series Traditional	\$\$\$-\$\$\$\$
Pella Lifestyle Series	\$\$-\$\$\$
Pella Impervia	\$\$
Pella 350 Series	\$\$-\$\$\$
Pella 250 Series	\$\$
Encompass by Pella*	\$\$-\$\$\$

Sliding Window

Horizontal sliding windows easily slide open from one side, providing easy access to fresh air in places where it may be difficult to open a window vertically, like over a sink or in a bathroom.

Bay or Bow Window

Bay windows consist of three windows, with the center fixed and the sides either fixed or venting. Bow windows are typically four or more to create a more graceful curve and can be a combination of fixed or venting windows.

Hinged Patio Door

Pella's hinged, wood patio doors are available in stunning designs. Choose from two movable doors that swing open from the sides, one movable with one fixed door, or a single door for simple elegance.

Sliding Patio Door

Sliding patio doors don't swing open, requiring less open floor space to operate. They are a great source of natural light and are available in both traditional and contemporary styles.

Pella Architect Series Contemporary	\$\$\$-\$\$\$\$

Multi-Slide Patio Door

Open your space for entertaining with Pella Scenescape multi-slide patio doors. The doors are available with up to 10 panels, which slide open to one side or open in the middle. The panels can be tucked away out of sight or stacked against each other when open.

AVAILABLE IN:

Pella Architect Series Reserve	\$\$\$\$-\$\$\$\$\$
Pella Architect Series Traditional	\$\$\$-\$\$\$\$
Pella Architect Series Contemporary	\$\$\$-\$\$\$\$

Special Shapes

From graceful curves to contemporary angles, these windows offer virtually unlimited design possibilities to achieve a custom look for your home at a competitive price. Availability by product line may vary. See your Pella sales representative for availability.

ENTRY DOORS

PELLA® ARCHITECT SERIES® ENTRY DOOR

Pella offers premium wood, fiberglass or steel entry doors.
For more information, see pages 54-57.

Entry Door Buying Made Easy

Follow this six-step guide to make shopping for your next entry door simple.

1

IDENTIFY WHAT'S IMPORTANT TO YOU

Energy efficiency? Extra privacy? Identify which door features, like glass, weather-resistant technology and sidelights are most important to you.

2

SELECT THE RIGHT MATERIAL

Ask yourself: which material is best for my home? Choose from wood, fiberglass and steel doors – each with their own unique attributes and distinctive styles. Explore materials beginning on page 54.

3

CHOOSE DOORS TO MATCH YOUR STYLE

Depending on the style, purpose of the door, and your budget, there are a wide variety of door styles and finishes available. View Pella's entry and storm doors beginning on page 54.

4

UPGRADE YOUR DOOR'S CHARACTER

Personalize your doors with dozens of finishes and colors, sidelights and transoms, and between-the-glass blinds or grilles. Explore hardware, trim and innovative options on page 64.

5

CONSIDER WARRANTY & INSTALLATION OPTIONS

Pella's products are backed by some of the strongest warranties in the industry. Pair that with professional installation – from Pella or a certified contractor – for peace of mind.

6

TALK TO A DOOR EXPERT

We take the guesswork out of entry door shopping. Visit a Pella Showroom or schedule an in-home consultation to see samples, get measurements and receive a free quote. Call us at 833-44-PELLA.

Pella® Architect Series® WOOD

Accentuate your home's style with one of Pella's premium wood entry doors. Choose from the warm elegance of mahogany or the unique character of rustic walnut. Perfectly complement your style and customize your door with a variety of options, including panel styles, decorative glass, grille patterns and prefinish stains.

THE NATURAL BEAUTY OF WOOD. Since no two pieces of wood are identical, Pella's premium mahogany and rustic walnut wood entry doors are uniquely one of a kind.

CREATE A TRADITIONAL OR CONTEMPORARY LOOK. Select from stains, obscure or decorative glass, grilles and unique decorative accents like hinge straps, clavos and speakeasies.

ADDITIONAL SECURITY. It takes over 1.5 times the force to break through a door with Pella's optional multipoint locking system than is required by forced entry requirements.* For convenience, use Pella's Insynctive® technology with built-in security sensors.

* Exceeds AAMA 1304 test requirements.

ENTRY DOORS

Pella® Architect Series® FIBERGLASS

Enjoy the low-maintenance benefits of fiberglass with distinctive wood styling and premium designs and features. Designed to be a feature in any home, Architect Series doors are available in wood-grain fiberglass or smooth fiberglass. Choose from a variety of panel styles and decorative glass with matching sidelights and transoms to customize your door for your home's architectural style.

THE LOOK AND FEEL OF WOOD WITHOUT THE WORK.

A full-length interior wood lock block reinforcement creates a sturdy, substantial swing for the look and feel of a wood door with the longevity of fiberglass.

EXPRESS YOUR STYLE WITH HARDWARE AND COLOR.

Make a personal statement with bold entry door colors and beautiful hardware collections from Pella and Baldwin® Reserve Hardware.

BUILT-IN SECURITY SENSORS. Preserve beauty, add comfort and enhance home security with optional, built-in Pella Insynctive® technology. Monitor windows and doors while at home or away with real-time notifications from the Pella Insynctive App.*

* Requires the Insynctive App on a smart device, an Insynctive Bridge and a wireless home internet router with internet connection.

View product info.

Pella's fiberglass or steel entry doors provide you with design flexibility to fit the style of your home. Designed from the inside out, our entry doors feature patented protection against drafts and leaks. Pella entry doors are also available with Insynctive® technology for added security.

EXCEPTIONAL DETAILS AND OPTIONS. Get the look of stained wood with a modern palette of VividGrain™ color options. Select obscure or decorative glass options to further enhance your door.

EXCEPTIONAL PROTECTION FROM DRAFTS AND LEAKS. Our optional and exclusive AdvantagePlus® frame system features a low-maintenance aluminum-clad frame and dual-seal weatherstripping technology to help protect from the damaging effects of wind and rain.

HARDWARE WITH PERSONALITY. Find the perfect finishing touch and customize the look of your entry door. Select from four unique hardware collections: classic, modern, rustic and essential.
