# THE GAF LIFETIME<sup>†</sup> ROOFING SYSTEM

*Because There's More To A Roof Than Just Shingles*

## GET AUTOMATIC LIFETIME PROTECTION ON YOUR ENTIRE GAF ROOFING SYSTEM!<sup>†</sup>

A new roof is more than just shingles. When you install any GAF Lifetime Shingle and at least 3 qualifying GAF accessories, you'll automatically get a Lifetime Ltd. warranty on your shingles and all qualifying GAF accessories.<sup>†</sup> Why settle for anything less?

**1 Lifetime<sup>†</sup> Shingles**

GAF offers you many great Lifetime Shingle choices, including **Timberline<sup>®</sup>** Shingles with Advanced Protection<sup>®</sup> Shingle Technology. They're the #1-selling shingles in North America! Advanced Protection<sup>®</sup> Shingle Technology results in excellent protection for your home while reducing the use of precious natural resources. That's better for your home — and better for the environment!

To learn more about why Advanced Protection<sup>®</sup> Shingles are your best choice, visit [gaf.com/APS/](http://gaf.com/APS/).

**2 Leak Barrier**

Provides excellent protection against leaks caused by roof settling and extreme weather. Ideal upgrade at all vulnerable areas (including at the eaves in the North\*).

**3 Starter Strip Shingles**

Saves time, eliminates waste, and helps reduce risk of shingle blow-off...and may help qualify for upgraded wind warranty coverage (see *GAF Shingle & Accessory Ltd. Warranty* for details).

**4 Roof Deck Protection**

Provides a strong layer of protection against wind-driven rain and moisture infiltration.

The GAF Lifetime Roofing System has earned the prestigious Good Housekeeping Seal, which means that Good Housekeeping stands behind the products in this system. (Refer to Good Housekeeping Magazine for its consumer protection policy. Applicable in U.S. only.)

**5 Cobra<sup>®</sup> Attic Ventilation**

Helps remove excess heat and moisture from your attic to promote energy efficiency in your home and help extend the life of your roof.

**6 Ridge Cap Shingles**

Enhances the beauty of your home while helping guard against leaks at the hips and ridges.

\*In the North, most building codes require the use of Leak Barrier at the eaves.

<sup>†</sup> See *GAF Shingle & Accessory Ltd. Warranty* for complete coverage and restrictions. The word "Lifetime" refers to the length of coverage provided by the *GAF Shingle & Accessory Ltd. Warranty* and means as long as the original individual owner(s) of a single-family detached residence (or the second owner(s) in certain circumstances) owns the property where the shingles and accessories are installed. For owners/structures not meeting the above criteria, Lifetime coverage is not applicable. Lifetime Ltd. warranty on accessories requires the use of at least three qualifying GAF accessories and the use of Lifetime Shingles.

# Advanced Protection®

## State-of-the-art technology helped us design our Advanced Protection® Shingles.

Test models similar to those used in America's space program, combined with some of the hardest minerals found on Earth, help GAF Advanced Protection® Shingles perform and protect like nothing else. No one makes a better asphalt shingle for toughness, flexibility, and heroic resistance to wind, weather, and fire. Plus, their advanced design requires fewer natural resources to manufacture and transport.

Sophisticated computer models (similar to those used to test the space shuttle) help predict long-term stresses at 10,000 points on GAF Shingles.

To learn more about **Advanced Protection®** Shingles, visit [gaf.com/APS/](http://gaf.com/APS/)

Engineered layer by layer for maximum durability.

## Advanced Protection® Shingles: the inside story.

**Tough to the core.** The high-strength fiberglass core at the heart of the system uses GAF proprietary low-profile technology for a shingle with extraordinary durability.

**Engineered with you in mind.** Unique asphalt formulations for every plant, plus custom adhesives designed to stand up to the specific climate challenges in your area, including temperature extremes from Arizona to Alaska.

**Protection on top of protection.** Ceramic-coated granules, made from some of the hardest minerals on Earth, protect against UV damage while providing vivid color that will stand the test of time.

Protecting what you value most.

# Install Peace Of Mind

Whether you install the ultra-dimensional Timberline Ultra HD® Shingles or the ever-popular Timberline HD® Shingles, you'll be getting all the benefits that only a genuine Timberline® roof can provide!

U.S. only

\*See GAF Shingle & Accessory Ltd. Warranty for complete coverage and restrictions. The word "Lifetime" refers to the length of coverage provided by the GAF Shingle & Accessory Ltd. Warranty and means as long as the original individual owner(s) of a single-family detached residence [or the second owner(s) in certain circumstances] owns the property where the shingles are installed. For owners/structures not meeting the above criteria, Lifetime coverage is not applicable.

\*\*Timberline® High Definition® Shingles have earned the prestigious Good Housekeeping Seal, which means that Good Housekeeping stands behind these products. (Refer to Good Housekeeping Magazine for its consumer protection policy. Applicable in U.S. only.)

<sup>1</sup>StainGuard® protection applies only to shingles with StainGuard®-labeled packaging. See GAF Shingle & Accessory Ltd. Warranty for complete coverage and restrictions.

<sup>2</sup>Based on a 2014 survey of U.S. homeowners commissioned by GAF comparing the appearance of two popular Timberline® High Definition® Shingle colors to the comparable colors of other leading brands.

<sup>3</sup>2013 National Association of REALTORS® survey commissioned by GAF of REALTOR® Appraisers and Non-Appraisers in the U.S.; response based on REALTOR® Appraisers that have had professional experience buying or selling a home with Timberline® Shingles in the three years preceding the survey and felt they could provide an estimated value increase for a home with a Timberline® roof as compared to a home with a basic three-tab shingle roof.

## Install To Protect.

When you install GAF Timberline® High Definition® Shingles with **Advanced Protection®** Shingle Technology, you're getting the very best combination of weight and performance that modern manufacturing technology can deliver. In fact, you won't find a shingle that surpasses Timberline® on:

- ✓ Toughness
- ✓ Wind uplift resistance
- ✓ Flexibility
- ✓ Fire resistance

That's why every Timberline® High Definition® Shingle comes with GAF's transferable Lifetime ltd. warranty\* — for your peace of mind! — plus the backing of the Good Housekeeping Seal.\*\*

## Install To **Invest.**

Your roof can represent up to 40% of your home's "curb appeal." Timberline® High Definition® Shingles not only protect your most valuable asset but also beautify your home for years to come — and add to its resale value.

An independent research firm surveyed U.S. homeowners about the brand of architectural shingles they preferred based on appearance. The result: **more homeowners preferred the look of Timberline® High Definition® Shingles** to the other leading brands.<sup>2</sup>

In fact, according to a survey conducted by the National Association of REALTORS®, you can increase the value of your home by an average of 5% with a new Timberline® roof!<sup>3</sup>

So why settle for anything less than a genuine Timberline® roof?

## Install To **Impress.**

Timberline® High Definition® Shingles are unlike any others, thanks to our proprietary shadow bands. Each shadow band is applied using a sophisticated, computer-controlled "feathering" technique. When combined with our randomly blended top layer, it results in a shingle with exceptional depth and dimension — **and a striking look unmatched by any other brand.**

But don't just take our word for it. See for yourself. When you compare Timberline® High Definition® Shingles to typical architectural shingles, it's easy to see why they'll look sharper and more beautiful on your roof — while enhancing the resale value of your home.

Whatever you're looking for, there's a Timberline® Shingle to fit your taste and your budget.

## Revolutionary Cool Roofing

- **Helps Reduce Cooling Costs...** According to the Cool Roof Rating Council, cool roofs may save you an average of 7–15% on your total cooling costs.<sup>1</sup>
- **Rebates...** Some utility companies may provide incentives for using cool shingles.

Thanks to the reflective nature of Timberline® Cool Series® Shingles, part of the heat radiating from the sun gets reflected, helping to reduce the heat in the attic and heat going into the house. It may translate into savings on air-conditioning bills.<sup>1</sup>

# DECKARMOR™

Premium **Breathable** Roof Deck Protection

- **Revolutionary "Breathable" Technology...** Helps reduce moisture in the roofing system that can cause mold, mildew, and expensive structural damage
- **Enhanced Walkability...** Specially designed surface helps provide enhanced walkability for installers compared to conventional felts or typical synthetic underlayments
- **Premium Construction...** Exceptionally durable, non-asphaltic construction will not rot or become brittle (unlike conventional asphaltic felts, which can disintegrate over time)
- **Exceptionally Strong...** At least 600% greater tear strength than standard #30 felt<sup>1</sup>
- **Looks Better...** Unlike conventional asphaltic felts, Deck-Armor™ resists wrinkling or buckling, so it lets your shingles lie flatter for a better-looking roof

<sup>1</sup> GAF trapezoidal tear strength (lbs) testing per ASTM D4533.

## SPECIFICATIONS

- UV-stabilized polypropylene construction resists UV degradation for up to 180 days\*
- Meets or exceeds the physical requirements of ASTM D226 and D4869
- Miami-Dade County Product Control and Florida Building Code approved
- ICC-ES ESR-2808
- Approx: 10 squares (1,000 ft<sup>2</sup> [92.9 m<sup>2</sup>])/roll (excludes laps); length 223' (68 m); width 54" (1.4 m); 37 lb. (17 kg)/roll (nominal)
- Listed with Texas Department of Insurance as an acceptable alternate roof underlayment

Note: **Always** use plastic cap nails or staples with plastic caps to install Deck-Armor™ Roof Deck Protection. Do **NOT** use nails or staples without caps.

## Deck-Armor™ "Out-breathes" the competition!

As measured on Mocon unit @ 23°C and 50% R.H. by GAF

# SHINGLE-MATE®

Roof Deck Protection

- Fiberglass reinforced, so it lies flatter than typical asphalt felts for a better-looking roof
- UL Listed to ANSI/UL 790 Class A when used with UL Class A roof coverings
- Miami-Dade County Product Control and Florida Building Code approved
- Meets the physical requirements of ASTM D226 and ASTM D4869
- Approx: 4 squares/roll (432 ft<sup>2</sup> [40.13 m<sup>2</sup>]); length 144' (43.89 m); width 36" (914 mm); 30 lb. (13.6 kg)/roll

\* See footnote on next page

# TIGERPAW™

Roof Deck Protection

- **Excellent Walkability...** Specially designed surface helps provide excellent walkability for installers compared to conventional felts or typical synthetic underlayments
- **Moisture-Control Design...** Helps remove nearly twice as much damaging moisture from your roof deck as the leading synthetic non-breathable underlayment<sup>1</sup>
- **Durable Construction...** Non-asphaltic, polypropylene construction will not rot or become brittle (unlike conventional felts, which can disintegrate over time)
- **Better-Looking Roof...** Unlike conventional asphaltic felts, Tiger Paw™ Roof Deck Protection resists wrinkling and buckling that can “telegraph” through your roof shingles and detract from its finished appearance
- **Stronger...** Synthetic, non-woven construction provides at least 600% greater tear strength than standard #30 felt<sup>2</sup>

<sup>1</sup> As per GAF ASTM D570-modified testing.  
<sup>2</sup> GAF trapezoidal tear strength (lbs) testing per ASTM D4533.

## SPECIFICATIONS

- UV-stabilized polypropylene construction resists UV degradation for up to 180 days\*
- Meets or exceeds the physical requirements of ASTM D226, D4869, and CSA A220-1
- Miami-Dade County Product Control and Florida Building Code approved
- ICC-ES ESR-3286
- Approx: 10 squares (1,000 ft<sup>2</sup> [92.9 m<sup>2</sup>])/roll (excludes laps); length 250' (76.2 m); width 48" (1.22 m); 40 lb. (18 kg)/roll (nominal)
- Listed with Texas Department of Insurance as an acceptable alternate roof underlayment

Note: **Always** use plastic cap nails or staples with plastic caps to install Tiger Paw™ Roof Deck Protection. Do **NOT** use nails or staples without caps.

\*Note: 180-day UV resistance refers to standardized testing conducted by GAF to ensure the product will not physically degrade when exposed to UV. It is **NOT** related to withstanding water, snow, or wind. While Deck-Armor™ and Tiger Paw™ Roof Deck Protection are water resistant, they are **NOT WATERPROOF. DO NOT USE** Deck-Armor™ or Tiger Paw™ Roof Deck Protection as a temporary roof to protect property or possessions.

# FELTBUSTER®

HIGH-TRACTION SYNTHETIC ROOFING FELT

- **Enhanced Walkability...** Special spunbound surface helps provide increased traction compared to typical asphalt felts
- **Tough Synthetic Construction...** Resists tearing and will not absorb moisture, become brittle, or leach oils
- **Easy to Work With...** Super-lightweight, 10 square, 48" (1.23 m) wide roll (vs. typical 36" [914 mm] wide felt rolls)
- **Cooler to Work On...** Medium-gray surface is cooler than typical black asphalt felts and the leading black low-cost synthetic underlayment

## SPECIFICATIONS

- UV-stabilized polypropylene construction resists UV degradation for up to 90 days\*\*
- For use with asphalt shingles
- Meets or exceeds the physical requirements of ASTM D226, D4869, and CSA A123-3
- Miami-Dade County Product Control and Florida Building Code approved
- Approx: 10 squares/roll – 1,000 sq. ft. (92.9 m<sup>2</sup>) (excludes laps); length 250' (76.2 m); width 48" (1.22 m); 23 lb. (10.4 kg) / roll (nominal)
- Listed with Texas Department of Insurance as an acceptable alternate roof underlayment

Note: **Always** install FeltBuster® High-Traction Synthetic Roofing Felt using plastic cap nails or plastic cap staples. Do **NOT** use nails or staples without caps.

\*\*Note: 90-day UV resistance refers to standardized testing conducted by GAF to ensure the product will not physically degrade when exposed to UV. It is **NOT** related to withstanding water, snow, or wind. While FeltBuster® High-Traction Synthetic Roofing Felt is water resistant, it is **NOT WATERPROOF. DO NOT USE** FeltBuster® High-Traction Synthetic Roofing Felt as a temporary roof to protect property or possessions.

- Approx: 2 squares/roll (216 gross ft<sup>2</sup> [20.1 m<sup>2</sup>]); length 65.8' (20.1 m); width 39.4" (1 m)

\*\*\*Note: 60-day UV resistance refers to standardized testing conducted by GAF to ensure the product will not physically degrade when exposed to UV. It is **NOT** related to withstanding water, snow, or wind. While RoofPro™ SBS-Modified All-Purpose Underlayment is water resistant, it is **NOT WATERPROOF. DO NOT USE** RoofPro™ SBS-Modified All-Purpose Underlayment as a temporary roof to protect property or possessions.

# Leak Barriers

Provides exceptional protection against leaks caused by roof settling and extreme weather

- **Protect Your Property...** Help prevent wind-driven rain from leaking through the roof deck, or melting ice and snow (caused by ice dams in harsh winter climates) from leaking into property's interior
- **Add Extra Protection...** In valleys and at eave and rake edges—the most leak-prone areas of the roof. Strongly recommended for other areas like skylights, dormers, vent pipes, chimneys, and other flashing areas
- **Help Avoid Costly Repairs...** Due to staining on interior walls and ceilings from leaks
- **Peace Of Mind...** Up to a Lifetime Ltd. warranty when installed on Lifetime Shingle roofs†

U.S. only

† See GAF Shingle & Accessory Ltd. Warranty for complete coverage and restrictions. The word "Lifetime" refers to the length of coverage provided by the GAF Shingle & Accessory Ltd. Warranty and means as long as the original individual owner(s) of a single-family detached residence [or the second owner(s) in certain circumstances] owns the property where the shingles and accessories are installed. \* See TruSlate® Smart Choice® Limited Warranty and TruSlate® Ultimate Pledge™ Limited Warranty for complete coverage and restrictions. The word "Lifetime" refers to the length of coverage provided by the TruSlate® Smart Choice® Limited Warranty and TruSlate® Ultimate Pledge™ Limited Warranty and means as long as the original individual owner(s) of a single-family detached residence (or the second owner(s) in certain circumstances) owns the property where the TruSlate® Premium Roofing System is installed. For owners/structures not meeting the above criteria, Lifetime coverage is not applicable.

Note: TruSlate® Slate is crafted from natural stone, so there may be variations in color between different slates or from one lot of slates to another. In addition, slate can fade or weather over time and each slate may fade or weather slightly differently, creating a natural mix of colors. For more information about weathering of each TruSlate® color, please see the TruSlate® brochure.

Note: TruSlate® genuine slate roofing is not part of the GAF Lifetime Roofing System.

# Exploring Shingle Styles and Colors

*with Nancy Fire*

**Nancy Fire, Co-Founder and Creative Director of Design Works International, has defined an exciting trend — taking the Inside Out.**

Nancy states, "As homeowners spend more time outside of their homes, they want to extend their interior style and sensibility — whether that be elegant, traditional, or more contemporary — to their outdoor living spaces that include the yard, the deck, and the roof.

"Your roof is a decision with a long-term impact. So make shingle, roofing style, and color choices that will complement your home and your personal style, providing you with years of comfort and satisfaction."

The color and style of your shingle are important! They go hand in hand when considering what shingle to use on your roof. After all, your roof represents up to 40% of your home's curb appeal, so it will always have a big impact on your home's overall look.

Choosing colors for your home's exterior is fun and exciting — and it's also a very significant decision. Remember, the color palette you select won't change with the seasons; it's going to be part of your home for the long term. So whether you like bolder colors that make a statement or you prefer more subtle, softer tones, you want to be sure that the palette you choose today is one that you'll still enjoy on your home years from now.

- Consider how much of your roof is visible from the street. Many times, larger roofs look more inviting using neutral tones while smaller roofs can be a bit more colorful, with more unique patterns.
- For a more traditional color palette, use tones of a color to incorporate a more subdued style into the exterior of your home. A neutral roof color creates the perfect backdrop for other colors.

- For a more contemporary design statement, try bringing attention to the top of your home (such as, using a red roof on a gray house) while coordinating trees and shrubs in the yard that will extend your roof color to your outdoor space (in this instance, like the Red Leaf Maple).

When it comes to choosing the style of your roof shingle, there's no such thing as right and wrong — there's only what works best for you and for your home. Certain elements, such as the size and pitch of your roof, can help determine what shingle style will better complement your home's exterior. Today, there are many types of shingle profiles and patterns available to help you differentiate your roof. Decide the statement you want to make, and embrace it!

- Color and texture add dimension to any home. In choosing your exterior shingle style, remember the importance of curb appeal in making these choices.

- The architectural style of your home is a key component when choosing a shingle style. A Colonial house, for example, might look best with a shingle that features a cleaner, more defined line, while a Victorian home could use a shingle with a more intense hue or a more elaborate and detailed design.

- A large roof surface is much like a blank canvas, giving you almost limitless possibilities for making a dramatic change in the look of your home's exterior. But smaller roofs or roofs with more variations in pitch also offer great opportunities, allowing the incorporation of more unique designs or patterns.

Above all, choose the shingle color and shingle style that make you feel the most comfortable. It's your home, your personality, your lifestyle. The final decision should reflect that — and do so beautifully!

There's  
a Style  
to fit your  
needs.  
There's

# MORE ROOFING PLANTS. MORE ROOFING PEOPLE.

**Sammy Sharp**  
Stillyard Leadman  
45 Years Of Service  
Dallas, TX

No matter where you live, there's a GAF plant that serves you, with products specially designed with you in mind. Made by hard-working men and women, many of whom are second- and third-generation employees who grew up with roofing "in their blood." They share our pride in innovation, and our commitment to investing in our country. In fact, GAF has more American plants than any other roofing manufacturer — along with the strongest network of factory-certified roofing contractors based in communities just like yours.
